

What should I do with my keys?

It's important that all keys are returned as they are on the property inventory and we will need to charge for replacements if any are lost. When you move out please put all your keys for the group together in a central location in the lounge and that the lead tenant is aware of where they are ready for the check-out meeting. If nobody is going to be present at the Check-out meeting then the last person to leave the property will need to post their keys through the letterbox so we are aware that one set of keys will be on the floor near the front door.
